

# KleanRite

**VACUUMS** with Reverse Flow Technology

**CONSTANT SUCTION!**  
**2 YEAR WARRANTY!**

### KRV15 Vacuum

Kut-Rite now offers the impressive filter cleaning system called Reverse Flow Technology. The process is extremely efficient and completely automatic, saving you time and money. All you have to do is start the vacuum. The filter is immediately cleaned automatically and every 7 seconds while you work. So there is no need to interrupt your work to clean the filter. You concentrate on your project, and KleanRite will take care of the filter!

### KRV25 Vacuum

The KleanRite KRV25 is the most powerful and versatile model available generating up to 300 CFM. The KRV25 comes equipped with standard features including: 110V/220V operation, quick release debris removal tank, an ergonomically designed mobile cart and an incredible 2 year limited warranty. Available in two models, 120V or 230V.

#### KRV15

Cable Length:	30 ft.
Power PMAX:	1500 W
Main Connection:	120V/1Phase/50-60hz
Air Flow Rate:	140 cfm
Vacuum (in H2O):	105
Working Sound Level:	67 dBA
Container Volume :	15 Gallon
Dimensions (LxHxW):	24" x 23" x 38"
Weight:	65 lbs.

#### KRV25

Cable Length:	30 ft.
Power PMAX:	2 x 1500 W
Main Connection:	230V/1Phase/50-60hz
Air Flow Rate:	300 cfm
Vacuum (in H2O):	92
Working Sound Level:	67 dBA
Container Volume :	15 Gallon
Dimensions (LxHxW):	24" x 27" x 39"
Weight:	90 lbs.

**Reverse Flow Technology**

Advanced technology delivers automatic filter cleaning while you work with full vacuum performance. The reverse flow technology is based on a valve controlled solution, using reversed air flow to clean the one half of the filter cartridge, while you still work with the other half of the filter cartridge. The valve allows the surrounding air to enter in the container, passing through the filter in the opposite direction. The dirt is blasted off the filter and the suction performance is restored.
