

BUDDY RHODES CONCRETE PRODUCTS.
FOOD GRADE BEESWAX
PRODUCT DATA SHEET

Buddy Rhodes Food Grade Beeswax helps prevent stains from oil and water based products on concrete counters. The Beeswax will protect the surface, enhance the color, and impart a warm feel.

For Use On

Concrete countertops.

Preparation

Pick a test area to see how the wax affects the surface.

Application

Remove the wax cake (or portion thereof) from container and rub the wax directly on the surface. Next, work the wax into the surface with a clean cloth and let sit. Buff after fifteen minutes.

Maintenance

Apply Beeswax regularly for maintenance. Use a wax stripper to remove.

Tips

Do not use the countertop as a cutting board. Always clean up spills right away. Avoid dragging heavy or sharp objects across top. Pans hotter than 200 degrees F. can affect finish. Use a trivet when possible. With a little care, your countertop will keep its beautiful appearance for a long time.
